JUDGE DAVIS DEAD.

Another Prominent Man Joins the Great Majority-Sketch of Judge Davis' Life. BLOOMINGTON, Ill., June 26.-David Davis died at six o'clock this morning. He sank into a comatose state twelve hours before the end and passed painlessly away surrounded by his family. During the early part of last evening he appeared to be failing, and it was felt certain that he could not live through the night. At eleven he revived somewhat and was given milk and stimulants in small quantities. The effect was for the worse, however, for he at once relapsed into a comatose condition, his pulse becoming very death was Bright's disease of the kidneys, aggravated by the weakened condition of the system from the time when he became affected with a carbuncle. His last hours were calm and peaceful.

BIOGRAPHICAL.

on the Eastern shore of Maryland, on March

David Davis was born in Cecil County,

9, 1815. His family was of Welsh extraction and had first settled in that region early He received his educational training at Kenyon College, Ohio, where he graduated in 1832. From college he went directly to the Harvard law school, and as soon as he finished the course there removed to the West and settled in Bloomington, Ill., where he was admitted to the bar in 1835, presented with a specimen of rich iron ore and commenced at once the practice from Greeley County. Coal has also been of his profession. He acquired at an Bloomington, which became a college town THE Superintendent of Insurance recent- and a city, and has now a population of 25,-000. He was soon brought into public life, and as early as 1844 was elected a Representative in the State Legislature. In 1847 he was a delegate to the constitutional convention, and a year later was elected a judge of one of the circuit courts of Illinois. This office he held by repeated quarters at Dodge City and Larned, has elections until he finally resigned it in 1862, when he was appointed by President Lincoln a judge of the Supreme Court Davis esponsed its cause warmly and was Afterward, however, he became an independent and had very little to do with active politics. He remained on the Supreme Bench until March 5, 1877, when he resigned to take his seat in the United maintained strict independence and allied himself with the organization of neither elected presiding officer of the Senate soon after Vice-President Arthur assumed the duties of a higher of-1883, when he was succeeded by Senator has since been living very quietly at his home in Bloomington. His recent illness was very sudden and its announcement a JOHN MONROE was recently fatally in few days ago was the first intimation the noted for the roundity of his person. He is said to have been the most ponderous personage who ever sat in the Senate.

## CUT IN RATES.

The Chleago Cut in Storage Rates an At-

tempt to Capture New Wheat. Sr. Louis, June 26 .- The Chicago elevators have inaugurated a cut in the rates of storage for wheat of Mc, reducing the rate from 11/e to 1/e, to go into effect July 1. This cut, just on the eve of the movement this city when the announcement of the cut was made to-day. CHICAGO'S TROUBLES.

The Lake Shore Switchmen Strike Against

Non-Union Men-The Police Overpowered -Traffic Deranged. CHICAGO, June 26 .- At the Root street crossing of the Lake Shore railroad yesterday morning, the police on duty numbered thirty, which included every available offipromptly attended, day or night. cer in the town of Lake force. There was no change in the situation up to nine o'clock, at which bour a car load of switchmen who had reached Chicago at about midnight from Toledo were taken out to Sixty-third street in charge of Superintendabout twenty-five and include many of those brought to Chicago during the last Calls left at J. M. Gleissner's drug store, daystrike. Shortly before ten the officials with the assistance of the police succeeded in attaching an engine and caboose to a waiting freight train of ten cars destined for South Bend. The crowd grew in proportions and GITZERS' BANK momentarily became more threatening.

TURNING THE SWITCHES. Finally responding to the cries of several laborers the crowd rushed for the police and turned the switches in spite of them. A portion of the crowd at the same moment surged toward the train, which had commenced to move out, but which passing upon the open switches was thrown from track, the engine and all the cars being derailed. To complete the wreck the coupling pins were withdrawn and thrown away. During the melee the police succeeded in making two arrests. One of them is a member of the executive committee of the Switchmen's Union. At eleven o'clock the crowd about the switching yards was still very large and constantly growing in numbers despite the frequent rain showers. Some of the imported switchmen were attacked by the strikers shortly after noon and severely injured. It is stated that a a number have refused to work owing to or night. fear of violence.

A TRAIN GETS OUT. At four o'clock in the afternoon fifty Pinkerton police appeared at the Fortythird street yards, accompanied by thirty switchmen. The strikers still remained in the vicinity in force and when an attempt was made to take an engine from the roundhouse the crowd made an effort to given to calls in town or country, day or run a box-car on the track. The police charged them, however, knocking two men down with their clubs, and placed them under arrest. A third man was also arrested who was active in the efforts to cause the blockade. The crowd then retired and the train, abandoned in the forenoon, heavily guarded, was successfully made up and run north to Thirty-eight street, where it passed upon the main track guarded by fully 100 police. It again proceeded south and passed out of the city.

CARS UNCOUPLED. Last evening a train of thirteen flat cars rushing along the Rock Island tracks, which are parallel to the Lake Shore, was boarded by several hundred of the mob. The officers saw nothing insignificant about this proceeding, but it proved to be part of a carefully laid plan on the part of the strikers. At Forty-sixth streets flats were uncoupled and thrown diagonally across the track over which the Lake Shore freight should pass. At Fifty-fourth street seven box cars were uncoupled thrown over the tracks of the Lake Shore. This was all done so quickly and quietly that the fact was not discovered until some time later, and had the train come along at a moderately good speed it would inevitably have been wrecked. The Rock Island officials were finally telegraphed for and came on with a wrecking engine and a force of clerks, who were put to work clearing the tracks. The regular wrecking crew or the Rock Island refused to come up. But slow progress was made, and at a late hour the men were at work. All traffic, passenger as well as freight, in the meantime is blocked.

THREATENED EXTENSION. general meeting of switchmen was held last night for the purpose of considering the strike of the Lake Shore men, and the concerted measures taken by the officials of the other roads in regard to forcing the handling of Lake Shore cars. It is given
